ControlSpace® ESP-1600
engineered sound processor

BOSE®

Product Overview

Product Information

Key Features

High-quality analog circuitry

Advanced digital signal processing

Expansion card slot

Optional Dante™

Bose® ControlSpace® Designer™ software

Front panel RJ-45 Ethernet

Built-in Bose ESPLink output

A variety of control options

Integration with industry-standard control systems

Applications

Bose

ControlSpace® ESP-1600
engineered sound processor

## Technical Specifications

# ControlSpace® ESP-1600
engineered sound processor

BOSE®

LED indicators

Ethernet connector

Front rack-mount ears
Analog audio connectors

ESPLink output connector

Chassis serial number

RS-232

Digital expansion slot
